CONGRESS VENUE

Villa Erba Congress Centre
Largo Luchino Visconti, 4
22012 Cernobbio, Como Lake, Italy

HOTEL RESERVATIONS

A list of hotels that can be booked online directly by participants will be provided in the congress website.

The following European Organisations will take part in the Congress

Italian Society of Virology
Gesellschaft für Virologie
European Society of Clinical Virology
Association Journées Francophones de Virologie
Danish Society for Virology
European Society for Veterinary Virology
Hellenic Society of Virology
International Society for Neurovirology
Netherlands Society for Microbiology
Norwegian Society for Microbiology
Spanish Society of Virology
Swedish Society for Microbiology
Swedish Molecular Virology Network
Swiss Society for Microbiology

**Second
Announcement**

4th EUROPEAN CONGRESS OF VIROLOGY

The European Congresses of Virology were initiated in 2000 to bring together young and senior investigators from all Countries of Europe and from all branches of Virology.

The aim of the 4th European Congress of Virology is to strengthen Virology in Europe, by providing a platform for basic, medical, clinical, veterinary, and plant Virology, and by fostering interactions.

The congress will signal the birth of the European Society for Virology.

It is also the Annual Meeting of the European Society for Virology, the German/Swiss/Austrian Society for Virology (Gesellschaft für Virologie), Italian Society for Virology.

The Venue is the beautiful Spazio Congressi Villa Erba, Cernobbio, Lake of Como. This is one of Italy's most enchanting corners. Cernobbio, very close to Como, dominates the west side of the lake and offers a beautiful view of the lake. Lake Como has always been a world famous international resort. Visitors are enraptured by its charming atmosphere and natural beauty. Cernobbio-Como are 50 Km away from the Malpensa Airport, the main airport in Northern Italy.

The large auditorium of Spazio Congressi Villa Erba, additional auditoriums, exhibition space and a spacious lakefront private park ensure that delegates and exhibitors will have ample opportunity to meet in a relaxing environment.

Reduced registration fees for Ph D students. A large number of travel grants will be made available by the participant Organizations.

The Scientific program includes Plenary Symposia, Workshops with State-of-the-Art Lectures, poster sessions, and satellite meetings on the many areas of Virology

To receive further information, please visit the websites www.eurovirology2010.org www.eusv.eu

PRELIMINARY PROGRAMME

SYMPOSIA

The global impact of virus persistence

Challenges in vaccine developments and innate immunity

Virus structure and entry

Novel frontiers in Virology

WORKSHOPS

Epidemiology and virus evolution

Viral infections in transplant recipients and pregnancy

Parvovirus B19

Viral gastroenteritis

Diagnostics and molecular typing

Antivirals and resistance

Emerging viruses and zoonoses

Respiratory viruses

Hepatitis viruses

RNA viruses

DNA viruses

Viral glycoproteins, receptors and entry

Virus structure, assembly and exit

Virus-host interactions

Transcription and siRNA

Systems biology of viruses

Plant viruses

Intrinsic and innate immunity and pathogenesis

Adaptive immunity and immune prevention

Viral persistence and immune evasion

Viral oncology, Oncolytic viruses.

Viral vectors, gene therapy

Neurovirology and endogenous retroviruses

SPECIAL LECTURES

ESCV Gardner lecture

GfV Loeffler-Frosch Medal

GfV Loeffler-Frosch Award

SIV Pioneer in Virology lecture
